

GreaseShot™

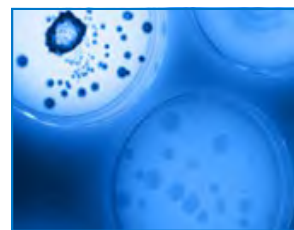

BIO-DOSE DRAIN REMEDIATION

GreaseShot is the simplest self-service dosing system to **bio-remediate** drains, grease traps and lift stations - **24/7**. Biological preventive maintenance is the sustainable solution for fewer blockages, cleaner wastewater & peace-of-mind.

GreaseShot Bio-DOSE

Delivers multi-strain microbial FOG treatment **automatically**, with easy refill high-count pouches.

GreaseShot bio is a proprietary probiotic formula to treat **ORGANICS** in wastewater. The active microbes breakdown **fats, oils, grease** and **starches**; rendering them unable to reform or clog drains. All formulas are bio-based, non-toxic, safe for plumbing and the environment. Also, refilling with a concentrate pouch is **less** to ship, store & handle.

- **REMEDiates** organic waste build up with high count microbial action
- **PREVENTS** emergency drain problems from **FOG & Starch** build up
- **REDUCES** odours and noxious gases through biotechnology
- **EXTENDS** grease trap cleaning intervals from reduced grease loading
- **IMPROVES** FOG, TSS and BOD for cleaner **waste water** effluent

GreaseShot™...keeps your drains & grease trap flowing

Formula Specifications

PRODUCT PROFILE

Applications

- Grease traps / Interceptors
- Kitchen drains (grease)
- Beverage lines (sugars)
- Lift Stations
- Collection Systems

Multiple *Bacillus* Species

- Naturally occurring, non-engineered
- Aerobes and facultative anaerobes
- Highly motile
- Positive chemotaxis
- 100% stabilized bacterial spores

Bacterial Enzyme Production

Amylase, Protease, Lipase, Esterase, Urease, Cellulase, Xylanase

Appearance

Blue Concentrate fluid

Effective pH Range

4.25 – 10.0

Effective Temperature Range

5°C – 55°C (40°F – 130°F)

Shelf Life

One year at 21°C (70°F)

STANDARD PACKAGING

Available in Concentrate:

650ml | Bio Pouches

(3) Pouches

3 REFILL POUCH

FOG FORMULA

STORAGE AND HANDLING

Store in a cool, dry location.

Do not freeze

Wash thoroughly with water if exposed to skin or eyes

FORMULATION GUIDELINES | Dry pack

To refill system, lift reservoir from dock, rinse out and fill with water. THEN add the bio treatment **pouch** into bottle. Cap, shake & swirl to mix. Place reservoir back into dock. System will pick back up, no buttons to push.

Wall Mounted for HIGH visibility and operational ease to refill.

Automated Dosing Timer:

4-week, 2-week & 1-week

Refill interval schedules, easy to adjust and set.

GreaseShot operates with proprietary bio treatments to target multiple waste streams. Kit includes: **bio-dose housing, reservoir, auto-doser, fittings & tubing.**

FOG | Drain Line & Grease Trap Dry Pack - **fats, oils & grease.**

*Also available:

SGR | Bar Drain & Beverage Line Liquid Conc. - **sugars, soda & syrups**
